

Multiple Choice

[QUESTION]

1. The meaning of the phrase *terra incognita* is essentially
- Great black dinosaur.
 - Unknown land.
 - Knowledgeable woman.
 - Beautiful island.

Answer: b.

Type: Multiple Choice

Topic: Historical Perspectives

Section: 2A

Bloom's Level: Remember

[QUESTION]

2. According to the authors, the oldest known world map
- was made in China.
 - portrayed Europe in much detail.
 - was from Babylonia.
 - showed Columbus's voyages to the new world.

Answer: c.

Bloom's Level: Remember

[QUESTION]

3. Versions of Ptolemy's maps (from about 100 A.D.)
- were used 1500 years later.
 - showed the Americas as one land mass.
 - portrayed Japan with an accurately detailed coastline.
 - were always in black and white.

Answer: a.

Type: Multiple Choice

Topic: Historical Perspectives

Section: 2A

Bloom's Level: Remember

[QUESTION]

4. Eratosthenes measured the circumference of the earth by
- figuring an angle as a fraction of the total circumference of the Earth.
 - traveling half of the earth and multiplying by 2.

- c. observing shadows on the moon through a magnifying glass.
- d. meditating in a dark cave.

Answer: a.

Type: Multiple Choice

[QUESTION]

5. In the Middle Ages geography often took a backseat to

- a. Christian meanings about surroundings.
- b. Agricultural diffusion and understandings of the use of seeds.
- c. Contemporary medical practices then popular.
- d. The philosophical quotations of the late Greeks.

Answer: a.

Type: Multiple Choice

Topic: Historical Perspectives

Section: 2B

Bloom's Level: Remember

[QUESTION]

6. The T-O map is an expressly religious representation showing water bodies as the body of Christ on the cross with Jerusalem as the head of the body. In this map type, the top was often

- a. the Mediterranean Sea.
- b. the Orient (or east, thus the word "orienting" for maps used today)
- c. the European region.
- d. Africa, or as called in that day, "Libya".

Answer: b.

Type: Multiple Choice

[QUESTION]

7. Muslim and Chinese thinkers tried to understand geographic and physical processes like

- a. How one can navigate using wind patterns.
- b. How atmospheric pressure leads to changes in weather.
- c. How migration is the result of push and pull factors.
- d. How mountains erode and the effects of water on landscape.

Answer: d.

Type: Multiple Choice

Topic: Historical Perspectives

Section: 2B

Bloom's Level: Remember

[QUESTION]

8. Prince Henry, the Navigator of Portugal, funded expeditions that
- proved that the foundations of T-O maps were baseless.
 - showed there was no uninhabitable 'torrid' zone in the tropics.
 - led to American naval supremacy 100 years later.
 - financed the Euro currency throughout Europe.

Answer: b.

Type: Multiple Choice

Topic: Historical Perspectives

Bloom's Level: Remember

[QUESTION]

11. Scurvy, a debilitating disease caused by the lack of vitamin C in a diet did not affect sailors until
- they reached Africa which did not have many fruits.
 - they finally reached Japan which had no medical knowledge to speak of.
 - they started taking fruit with them on voyages (which became rotted).
 - they started venturing out farther into oceans and away from coasts.

Answer: d.

Type: Multiple Choice

Topic: Historical Perspectives

Section: 2C

Bloom's Level: Analyze

[QUESTION]

12. The need to accurately measure longitude in the 1600s and 1700s eventually led to

- a. the invention of the clock.
- b. the invention of diesel power.
- c. the construction of London's Crystal Palace.
- d. the conglomeration of British colonies in Africa.

Answer: a.

Type: Multiple Choice
