<head>
  <title> Exercise 2.3 (background) </title>
  <meta charset = "utf-8" />
</head>
<body>
<p>
Although we share the same family name, I am not in any way
related to the famous (or is it infamous) adventurer, Bilbo.
I have a lovely wife, Elvira, and two grown children, Max
and Miriam. Max has chosen to follow me in my profession,
which is described below. Miriam is a beekeeper for the town
bookkeeper, who keeps bees as a second job.
</p>
<p>
I am employed by Forest Keepers, Limited. My job, as I understand
it, is to keep an eye on the 4 acres of wild cranberries that
grow in the swamp at the edge of the village forest. I am required
to file a daily report, in triplicate, on the condition of the
cranberry bushes. To accomplish my task, I walk by and inspect
every cranberry bush in the swamp every workday. My employer provides
me with wading boots for my job. I pick up the boots at the office
every weekday morning and turn them back in, after a thorough
cleaning, after each workday.
</p>
</body>
</html>
```

## Exercise 2.4

```
<!DOCTYPE html>
<!-- e2_4.html
      A solution to Exercise 2.4 - an unordered list
-->
<html lang = "en">
<head>
  <title> Unordered List </title>
  <meta charset = "utf-8" />
</head>
<body>
<h3> Grocery List </h3>
<ul>
  <li> milk - 2%, 2 gallons </li>
  <li> bread - butter top wheat </li>
  <li> cheddar cheese - sharp, 1 lb. </li>
  <li> soup - vegetable beef, 3 cans </li>
</ul>
```

```

    <li> hamburger - 80% fat free, 2 lbs. </li>
    <li> orange juice - not from concentrate, 1/2 gallon </li>
    <li> eggs - large, 1 dozen </li>
</ul>
</body>
</html>

```

## Exercise 2.8

```

<!DOCTYPE html>
<!-- e2_8.html

<article>
  Family information can be neatly organized using any of several
  available software systems. These systems provide the capability
  of producing tree-structured drawings of the organization of
  a family.
